

Mini-Gripper Radial Motion Double Acting

BG-A1

Mini-gripper has radial action fingers that simultaneously open 45 degrees from their closed position. The double acting cylinder requires air pressure to open and close the gripper fingers.

Steel fingers are drilled and tapped for your tooling. Gripper body is anodized aluminum.

TECHNICAL DATA:	
Weight	.9 oz
Max Rec Load	1 oz
Force @ 80 PSI	.15 lbs at F
Operating Pressure	60-100 PSI
